AN OP/ED: Tesla, Musk, Trump, and Jasmine Crockett*

Posted: April 11, 2025

For Immediate Release

By Ms. Arelya J. Mitchell, Publisher/Editor-in-Chief

The Mid-South Tribune

The Democratic Party needs criminals.

The Democratic Party's silence on Molotov cocktail-bombings of Tesla dealerships, shooting out windows of these dealerships, and all-around violence on Tesla owners should not be a surprise to anyone who has been following the Democratic Party's embrace of violence and its love affair with criminals, especially if they are illegal immigrant criminals with a high breed of gang affiliation. These international gangs are sophisticated enough to set up quasi-governmental units inside specific states to aid and abet the Democratic Party in setting up a "Democracy" in the U.S.A. The Party propagandize the word "Democracy" with the same sincerity as any dictator who makes the promise of a "Democracy" while he is setting up a regime of tyranny.

March 29th was dubbed Take Down Tesla Day which was a day of tyranny the Democrats condoned to hide their hatred and fear of Elon Musk whom President Trump appointed to head DOGE (Department of Government Efficiency). Democrat Angry Black Woman (DABW) Cong. Jasmine Crockett expressed how delighted she was that a global Take Down Tesla Day would be on her birthday, because she wants to specifically take down Elon Musk. There is a good anger which moves one to be constructive, then there is an anger which moves one to be destructive. In other words, Cong. Jasmine Crockett is no Rosa Parks; therefore, you can look for her to join Joy Reid and these other Democrat Angry Black women who are presently the de facto leaders

and decision-makers in the Democratic Party. Unlike Musk, Crockett produces nothing. Like too many so-called Black Democratic Party leaders, she is adept in speaking Ebonics and profanity, wearing long straight black Caucasian hair down her back in lieu of an Afro, and picking up her paycheck in a nation where the job producers are mostly White. (Now, no one would care about her affection for 'white' straight hair or that she speaks Ebonics, or where she picks up her paycheck if she did not make such a mockery of others having the freedom of choice, too.). Of course, we must not forget the Ebonics language was pushed by Black Democratic scholar socialist elites as an excuse to dummy down the Black 'peasant' student while they sent their darlings to private and Ivy League schools. You know to 'ignorantize' them to be socialist ignoramuses following CRT pedagogy of the oppressed —but, I naughtily digress.

Just as the Democratic Party used violence and the court system to codify Jim Crow after the Civil War in violation of the 13th, 14th, and 15th Amendments, it has taken this same strategy to use violence and the court system with its radical nest of judges and such legal eagles as The 65 Project attorneys to codify DEI (Diversity, Equity, and Inclusion) to hide the real meaning of the word "Equity" which is Marxist ideology to make America a socialist-Marxist nation and an extension of the Chinese Communist Party (CCP). (After all, one has to wonder why the Democratic Party keeps accommodating the needs of the CCP over the needs of the American people.).

The rage on Tesla is a distraction. This is really about Musk and DOGE discovering and yes even 'unearthing' waste, fraud and corruption inside government agencies which have been ripping off taxpayers since time was a second. An example of this 'unearthing' was when Musk and DOGE discovered that files on retirement, etc. were being housed literally in a cave! Those government retirees should be enraged not at Musk or DOGE but at a status quo which thrives on this waste, fraud, and corruption. As DOGE and the Trump administration continue to excavate government corruption, it may very well be discovered that the Democratic Party is the main beneficiary of this corruption as it uses what I call the Black shield of Black Democrats whose main goal is to call anybody and everybody a racist, white supremacist, or if you are on the 'Black side of things', an Uncle Tom or 'negro' as the 'perfect' distraction to stop DOGE in its tracks, but it is not working. What this Black shield is mostly afraid of is that DOGE is getting too close and too soon in discovering a black rot inside the Congressional Black Caucus (CBC) and an NAACP both of which are no longer about the advancement of Black constituents and their needs but rather these once venerable organizations have fallen into the throes of making themselves rich and powerful, *a la* Black Lives Matter (BLM) founders who are in the same mode as corrupt Third World Black African leaders who demand and get millions and billions from weak White capitalists who have already caved in by aiding and abetting in codifying re-segregation *via* DEI (Marxism) and BLM, an avowed Marxist organization. Dare I ask the question of how many Black millionaires and multi-millionaires are in the CBC and NAACP in the

21st Century? Yes, I dare. When one looks at their concerted 'black' attack on Musk and DOGE, one needs to ask why are they rabid when it comes to protecting departments of Environmental Protection Agency (EPA), Labor, Defense, Agriculture, Education, Housing and Urban Development, Energy, Small Business Administration (SBA), and Veterans Affairs to keep these entities the same as they were run under the Biden regime and the Democratic Party socialist regime? Why are they so rabid when it comes to protecting the teacher's unions when Black children cannot read? Of course, we must not forget USAID which might as well have been renamed Kickback and Fraud Safe Haven. But I digress off the X-factor.

Elon Musk put on X (formerly known as Twitter) what he stated on "Hannity" on Fox Cable Network: "The reason I'm here is because I'm very worried about America going bankrupt due to the corruption and waste and if we don't do something, the ship of America is going to sink. We are all on that ship. This might be a message to people out there who are wealthy and have a lot of means... Just remember we are all on ship America here. Your company is not going to exist if the ship of America sinks. We should do everything we possibly can to ensure that America is strong far into the future, or we're all sunk."

Lest we forget, Musk did not start off wealthy. He built it just like so many Americans who acquired wealth through hard work and ingenuity.

It is clear that for the Democratic Party's coup to sustain itself, it must begin a complete destruction of private wealth, private ownership, small businesses, minority businesses—all businesses. Its goal is to destroy entrepreneurship (the core of America's capitalism), and place entrepreneurship into the bowels of state-ownership—the nationalization of ownership under a one-party rule with a socialist-Marxist credo, following the path of the CCP.

Every responsible American regardless of race, color, or creed should be worried and stand behind both Trump and DOGE to wage war on these groups of paid misfits who call themselves protesters. These Tesla destroyers should be taken into custody as an avenue to 'follow the money' to see who is 'behind the curtain'. Yes, they are paid protesters. If you want to see authentic protesters, go back via film footage of civil rights protesters who kept going into the street to endure water hoses, dog teeth, and beatings day after day to get freedom. If one said 'boo' to these anti-Tesla protesters, they would faint or scatter like the rats that they are. Also, the irony should not be lost that it was the Democratic Party machine in the 1960s which condoned Jim Crow and bloody beatings of protesters. My! The more things change, the more things stay the same with this Party!

Furthermore, President Trump is bringing back auto manufacturing which is why the United Auto Workers (UAW) Union is supporting him. Auto unions and workers should stand up for Musk, because this issue is bigger than Tesla, an American-made automobile—an American

company. This is about the very core of America—outside of freedom—which is entrepreneurship and old-fashioned capitalism— “The Wealth of a Nation.”

I am sure Musk knows just as does President Trump that if the Democratic Party coup succeeds, that Party will do what most dictatorial parties do: Nationalize companies to serve the state and their cronies. Jack Ma is a name Americans should note. Ma who created Alibaba was one of the richest men in the world, but when China reclaimed Hong Kong, Ma’s company was nationalized, and reportedly, he disappeared for a while. The point is that he is no longer in business or on the international business scene with a capitalism which created jobs and opportunities for others. So, if you are an entrepreneur who worked to make your company gigantic and successful or if you are a mom & pop shop to a mid-sized small or middle business, you are the enemy of the state. You are the enemy of the Democratic Party. All throughout history, socialists, communists, and Marxists confiscated companies, businesses, and property to serve the state and their cronies.

When U.S. Sen. Corey Booker broke the record of the late U.S. Sen. Strom Thurmond of filibustering, he was the same filibuster as Thurmond. One segregationist was Black (Booker) advocating for DEI, and the other segregationist was White (Thurmond) advocating for Jim Crow. Ironically, both were protecting the roots of the Democratic Party. By default, socialism is segregation; DEI is segregation (something I shall expound on yet again in a later column).

So, are those who work for other auto manufacturers next? Are those who drive Chevrolet or Ford next? Who the heck are these Democrats and their ‘squads’ to tell American citizens what car they can buy or sit in or even create?

CEOs of Corporate America and other auto manufacturers should back Musk, Tesla, and Trump because this concerted attack on Elon Musk and Tesla is to put FEAR in a nation built on entrepreneurship. FEAR is a cheap commodity with deadly dividends.

In this 21st Century, the Democratic Party is anti-American and anti-America. March 29th was a continuation of the Democratic Party’s failed socialist coup. Violence on Tesla is domestic terrorism, and the Democratic Party owns it.

-End-
