Jay Leno raises over half mil for MatchingDonors.com with Big Dog Garage Tour during National Donate Life Month ... from sports page 1

MatchingDonors. We'll make sure he and his friends have an unforgettable experience when they come for the tour."

Andy said "I previously donated a property to MatchingDonors.com, and I'm happy to donate again. It's a powerful way for me to make a lasting impact on individuals in need of life-saving organ transplants. The nonprofit organization connects donors with transplant candidates, and it's using donated properties to directly support those waiting for a second chance at life. By donating my properties, I'm contributing to a wonderful cause that saves lives. Also, I'm helping to raise awareness about alternatives to the long wait for vital organ transplants. Paul and the staff at MatchingDonors.com provided a seamless process, making it easy to turn my properties into gifts of hope and opportunity for people in urgent need."

Paul Dooley said, "That's an incredible gesture by both Jay Leno and Andy Hartmann! I've known Jay for many years and Andy for only a few years and it's always amazing to see them using their platforms to support MatchingDonors.com's life-saving cause. We are very appreciative of both Andy and Jay. April National Donate Life Month is a time to raise awareness about organ donation, and their gener-

ous donations are outstanding examples of how people can get involved in making a difference. Our ongoing success is a testament to Jay's and Andy's dedication to transforming lives and expanding access to life-saving organ transplants."

Since launching in 2004 MatchingDonors.com, the award winning 501(c)(3) nonprofit organization, has helped over 10,000 of their registered patients needing organ transplants and over 15,000 registered living altruistic organ donors willing to donate an organ to a patient on MatchingDonors.com. MatchingDonors.com is based outside of Boston; not too far from where Jay grew up, and where Andy resides. MatchingDonors.com has become the most successful nonprofit organization that is finding living altruistic organ donors for patients needing life saving organ transplants.

As of April 9, 2025, every day in the United States 15 people die many waiting 7-15 years on the government's invitee-only national organ transplant waiting list for a deceased organ transplant that may never come while at least an additional 250 people die every day needing an organ transplant that were not allowed on the government's list because they were too poor, too old or too sick to be considered a "good candidate for a transplant." A new patient's name is added to this national organ transplant waiting list every 8 minutes. 86% of patients waiting are in need of a kidney.

The team at MatchingDonors.com is working hard to make sure that does not happen by finding altruistic living organ donors for people needing kidney and other transplants, and Realtors© Tony Raizes and Fred Attalla of Point East Properties in Portsmouth, New Hampshire, have been an invaluable asset to MatchingDonors.com. Their unwavering support throughout the entire

process of property donations and sales has played a crucial role in helping patients secure life saving transplants.

MatchingDonors.com is not an invitee-only list; everyone need-

ing an organ transplant is allowed on our list regardless of whether they are poor, old or sick. As long as a patient is registered at a transplant hospital in the United States willing to per-

form the transplant operation, everyone is considered a "good candidate for a transplant" with MatchingDonors.com.

MatchingDonors.com has become the highly successful non-

profit, award-winning organization that is improving those odds by finding living, altruistic organ donors for patients needing organ transplants.

Many patients find their living

altruistic donor organ and get their lifesaving organ transplant within six months of joining MatchingDonors.com. You can help save lives by donating to MatchingDonors.com.
